

## Ford Material Better Costs Less

You might tie a FORD front Axle in a knot, but you can't break it—just one little reason why you should buy a FORD.

Should you wreck a FORD Fender, a new one will cost you but \$2.50. Make the salesman for the "other" car show you in black and white the price of his Fender—(It will be from \$4.00 up)—just one more reason why you should buy a FORD.

If you want a FORD this spring better get your order in now; we have a great many orders for Spring and those who wait until Spring to sign an order, may wait much longer for their car. This for your information.

## If You Want Your Victrola by Christmas Order It NOW

Large additions to productive capacity have given the Victor  
Company a tremendous increase of output over former years but  
a constantly augmenting demand has more than absorbed the gain.  
Never before in the history of Victrola production has the short-  
age been so acute.. The Victor Company with 8,000 operatives  
and a never ceasing day and night production, finds itself liter-  
ally deluged with unfilled orders.

Our stock is not by any means complete, but with a few of the  
best selling styles unsold, and with shipments on back orders due  
to arrive within the next week, we are prepared to accept a limited  
number of orders for certain styles with the promise of Christmas  
delivery. But, remember, a limited number only, hence do not  
wait too long.

Call to-day and select the one Christmas gift that will give  
more pleasure to more people for a longer time than anything else  
you could buy.

VICTROLAS \$15.00 to \$400.00. Convenient Terms of Pay-
